Letter From The Superintendent

Dear Mustang Students, Parents and Families,

It is truly an honor and a privilege for me to open the 2025-2026 school year as your Superintendent. My focus for this year is to create a safe and secure learning environment where strong partnerships and a community of students and teachers can flourish. Only by working together can we build the kind of momentum that will launch the Midland School District into a new era of possibilities for students, parents, and the entire Midland School District.

During the summer we have continued our work in collaborative teams to develop and enhance our focus on student learning. Teachers have worked to recognize the most important standards in each grade level and trained in the practice of professional learning communities to better understand how to use assessment data to individualize instruction to match student needs. Throughout the school year, we will be showcasing these great programs and highlighting the joy of teaching and learning.

Our goal this year is to ensure that every student attends school regularly. Chronic absenteeism negatively impacts learning to such a degree that we recognize it as a top priority second only to student safety. Parents and families play an important role in promoting student attendance; teachers, administrators, and counselors can offer student support and programs to improve attendance, but parent involvement makes all the difference in ensuring regular student attendance. Everyone in our community can make a difference by helping students and families understand that going to school everyday is critical to their academic achievement. Together we can make school attendance a community priority so that all our students achieve success!!!

As we begin this new school year, I cannot express how fortunate I feel to be part of such a wonderful school district and community. It is an honor for me to serve the students, parents and the Midland School District Community. Welcome Back!!

Sincerely,

Toby Crosby

Toby Crosby, Superintendent

Midland School District

STUDENT TRANSFERS

Transfer applications received by the District shall be placed on the Board's next meeting agenda. At least five (5) days before the meeting where the transfer application appears on the agenda, the superintendent shall notify the Board regarding:

- All transfer applications received since the last meeting; and
- The superintendent's recommendation concerning each transfer application.

Each transfer application shall be considered individually and receive a separate vote by the Board. The parent, legal guardian, person having lawful control of the student, or person standing in loco parentis to a student who submits a transfer application shall be given at least five (5) minutes to present the student's case for a transfer to the Board.

The Board may reject a nonresident's application for admission if its acceptance would necessitate the addition of staff or classrooms; exceed the capacity of a program, class, grade level, or school building; or cause the District to provide educational services not currently provided in the affected school.²⁴ The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation.

If the superintendent intends to recommend the Board deny the transfer application, the superintendent shall provide a written explanation of the reasons for the recommendation to the Board and the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis to the student.

The parent, legal guardian, person having lawful control of a student, or person standing in loco parentis to the student who submitted a transfer application that was rejected may appeal the decision of the Board to the State Board of Education.

Any student transferring from a school accredited by the Division of Elementary and Secondary Education (DESE) to a school in this district shall be placed into the same grade the student would have been in had the student remained at the former school. Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Any student transferring from a school that is not accredited by the DESE to a District school shall be evaluated by District staff to determine the student's appropriate grade placement. A student transferring from homeschool will be placed in accordance with Policy 4.6—HOME SCHOOLING.

Any person who has been expelled from any other school district shall receive a hearing before the Board at the time the student is seeking enrollment in the District. The Board reserves the right to not allow the enrollment of such students until the time of the person's expulsion has expired following the hearing before the Board.³⁵

Except as otherwise required or permitted by law,⁴⁶ the responsibility for transportation of any nonresident student admitted to a school in this District shall be borne by the student or the student's parents. The District and the resident district may enter into a written agreement with the student or student's parents to provide transportation to or from the District, or both.

1. At the beginning of each school year, but no later than August 15;
2. By December 15th, for parents who decide to start homeschooling at the beginning of the spring semester, or
3. Fourteen (14) calendar days prior to withdrawing the child (provided the student is not currently under disciplinary action for violation of any written school policy, including, but not limited to excessive absences) and at the beginning of each school year thereafter. The parents or legal guardians shall deliver written notice in person to the Superintendent the first time such notice is given and the notice must include:
 1. The name, date of birth, grade level, and the name and address of the school last attended, if any;

2. The location of the home school;
3. The basic core curriculum to be offered;
4. The proposed schedule of instruction; and

The qualifications of the parent-teacher.

To aid the District in providing a free and appropriate public education to students in need of special education services, the parents or legal guardians home-schooling their children shall provide information, which might indicate the need for special education services.

4.7 ATTENDANCE

Education is more than the grades students receive in their courses. Important as that is, students' regular attendance at school is essential to their social and cultural development and helps prepare them to accept responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction, which results in higher student achievement. In recognition of the need for students to regularly attend school, the district's policy governing student absences is as follows:

If any student's Individual Education Program (IEP) or 504 Plan conflicts with this policy, the requirements of the student's IEP or 504 Plan take precedence.

Attendance for students enrolled in synchronous digital courses shall be in the same manner as for District students attending courses in person.

ATTENDANCE REQUIREMENTS

All classes K-12 begin at 7:50 am. All elementary (K - 6) classes dismiss at 3 p.m. All high school (7-12) classes dismiss at 3:19 p.m.

Students who are scheduled to have a dedicated period for a digital class onsite that fails to be physically present for an assigned period may be disciplined in accordance with the District's attendance policy.

ABSENCES

"A student is absent if he or she is not participating in instruction on school grounds unless the student is participating in a district approved activity at an off-grounds location for the school day." (Dept. of Elem. And Secondary Education)

Students are not allowed to have more than 10 (ten) absences a semester unless there is administration approval prior to the absence. Missing 10 or more days within a semester will be considered excessive and may result in loss of credit for each class or retention for the grade level attending. Extenuating circumstances will be considered by the administration on a case by case basis.

1. A maximum of 8 such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature and approved by the principal. An official letter (letterhead) written and signed by the doctor has to be delivered to the office within five (5) school days of the student returning to school for the chronic or recurring nature medical issue. Medical excuses will not be accepted after five (5) school days upon returning to school following the absence .
2. Students may bring doctor's notes to put in their files, all other absences will be considered as an unexcused absence. NO Parent Notes will be accepted for sickness. To participate in the election poll workers program for high school students;

3. Absences granted to allow a student to visit his/her parent or legal guardian who is a member of the military and been called to active duty, is on leave from active duty, or has returned from deployment to a combat zone or combat support posting. The number of additional absences shall be at the discretion of the superintendent or designee. An excused absence will be provided to children of fallen uniformed service members and first responders due to: a mental health concern; or to attend an event from a sponsoring organization that provides support to families of fallen service members or first responders or provides support for traumatic loss.
4. Attendance at an appointment with a government agency. A letter from the agency with the student's name on it has to be brought in or prior approval from the administration.
5. Student is excused if he/she is sent home from school by the school nurse only for the day sent home. If the student is sent home for vomiting, diarrhea or fever he/she will be excused for that day and the next consecutive day at the nurse's discretion. The school nurse will inform the parent/guardian and notify the building secretary/administrator of the excused absence(s).
6. Observance of recognized holidays observed by the student's faith with prior approval by administration;
7. **Funerals:** Students will only be excused from immediate family funerals unless administration approval is given before the funeral date.
8. **Extracurricular Class Attendance Requirements:**
 - On the day of participation in an extracurricular event, students are required to be on campus for all enrolled courses unless approved by principal or designee beforehand. All students are required to ride the bus to and from events unless other arrangements have been made and cleared with administration or designee.
 - Absences granted, at the Superintendent's discretion, to seventeen (17) year-old students who join the Arkansas National Guard while in eleventh grade to complete basic combat training between grades eleven (11) and (12).
9. Absences for students excluded from school by the Arkansas Department of Health during a disease outbreak because the student has an immunization waiver or whose immunizations are not up to date.
10. Students who serve as pages for a member of the General Assembly shall be considered on instructional assignment and shall not be considered absent from school for the day the student is serving as a page.
11. Absences due to conditions related to pregnancy or parenting, including without limitation:
 - Labor, delivery, and recovery;
 - Prenatal and postnatal medical appointments and other medically necessary, pregnancy-related absences;
 - The illness or medical appointment of a child belonging to a parent who is enrolled at a District school;
 - A legal appointment related to pregnancy or parenting, including without limitation:
 - Adoption;
 - Custody; and
 - Visitation;
 - A reasonable amount of time to accommodate a lactating student's need to express breast milk or to breastfeed the student's child on the District's campus; and
 - At least ten (10) school days of absences for both a parenting mother and a parenting father after the birth of a child.
12. An 11th or 12th grader is allowed two (2) college days per year to visit colleges. College visits should be prearranged with administration. A letter from the college with the student's name on it has to be turned in within 48 hours of the return date from the student.
13. Absences for a student who is the child of a fallen service member or fallen first

responder:

- Due to a mental health concern; or
- To attend an event from a sponsoring organization that provides support to families of fallen service members or first responders or provides support for traumatic loss, grief, or resiliency.

15. Upon the written consent of a student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis to the student, the District shall grant an excused absence for the following purposes:

- Social or public policy advocacy; or
- Attempts to influence legislation or other governmental policy-making at the local, state, or federal level.

Up to one (1) time during each scheduled election, a student shall not be considered absent from school for the time the student accompanies the student's parent when the parent is exercising the parent's right to vote in a scheduled election.

It is the Arkansas General Assembly's intention that students having excessive excused absences be given the least restrictive environment in obtaining credit for their courses. Excessive absences may, however, be the basis for the denial of course credit, promotion, or graduation.

When a student has, three (3), five (5), eight (8), and ten (10) absences his/her parents/guardians, legal guardians, persons with lawful control of the student, or persons standing in loco parentis shall be notified. Notification shall be by telephone or by regular mail with a return address.

Whenever a student has reached 8 (eight) absences in a semester, the District shall notify the prosecuting authority and the parent, legal guardian, person having lawful control of the student, or persons standing in loco parentis shall be subject to a civil penalty as prescribed by law.

Students who attend ISS shall not be counted absent for those days.

It is the Arkansas General Assembly's intention that students having excessive absences be given assistance in obtaining credit for their courses. Therefore, at any time prior to when a student exceeds the number of absences permitted by this policy, the student, or his/her parent, legal guardian, person with lawful control of the student, or person standing in loco parentis may petition the school or district's administration for special arrangements to address the student's absences. If formal arrangements are granted, they shall be formalized into a written agreement which will include the conditions of the agreement and the consequences for failing to fulfill the agreement's requirements. The agreement shall be signed by the student, the student's parent; legal guardian; person having lawful control of the student; or person standing in loco parentis, and the school or district administrator or designee.

The District shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to suspend the former student's operator's license unless he/she meets certain requirements specified in the statute.

Immunization Absences

In lieu of the timeline above, assignments for students who are excluded from school by the Arkansas Department of Health during a disease outbreak are to be made up as set forth in Policy 4.57—IMMUNIZATIONS.

STUDENT ILLNESS/ACCIDENT

The school assumes no responsibility for treatment of the student. When available, current, and applicable, the student's emergency contact numbers and medical information will be utilized. It is the responsibility of the parents to notify the school district of any changes to contact information.

Any student with pink eye shall remain home until they have been on prescription eye drops for 24 hours.

TRUANCY

A student shall not be absent from school or arriving after the tardy bell without parents' and/or school authorities' prior knowledge and consent or they will be considered truant. After arrival on campus, a student absent from his/her assigned learning station without permission from school authorities shall be considered as truant. This includes athletics in the last period of the day. The parent must come in for a parent/administrator conference to discuss this matter. Disciplinary action will be determined by administration.

STUDENTS CANNOT LEAVE CAMPUS ONCE HE/SHE ARRIVES ON CAMPUS

Students are not permitted to loiter in parking areas and are not to return to their vehicles during the school day for any reason unless given permission to do so by school personnel. If a student leaves campus once the student has arrived on campus, discipline procedures will follow ranging from detention hall to suspension depending on the administrator's or designee's discretion.

It is understood that there is no expectation of privacy in vehicles in parking areas. Drivers of vehicles parked on a school campus will be held accountable for illegal substances or any other item prohibited by District policy found in their vehicle. The act of a student parking a vehicle on campus is a grant of permission for school or law enforcement authorities to search that vehicle.

CHECKING STUDENTS OUT EARLY for K-6

In order to promote security, maximize instructional time and minimize class disruptions, students **may not** be checked out after 2:45 p.m in grades K-6. Parents/guardians arriving to check out a student after that time must wait until students have been dismissed from class and may not leave the car rider parking lot until all car riders have been released. On early dismissal days, students may not be checked out within 30 minutes of dismissal time.

Checking In and Checking Out (7-12th grades)

If a student in 7-12 grades checks in 10 minutes or more after a class has started that student will be counted absent for that period and not tardy. If a student checks out of a class period

and misses more than 10 minutes of that class he/she will be counted absent for that class period.

Disputing Absences/Tardies (7-12 graders) (Must be updated in Tac)

From the day you are absent or tardy you have one week to dispute that absence/tardy to get it changed.

CHECK-OUT AND CHECK IN PROCEDURES

Attendance is extremely important to a student's success and learning in each class. Therefore, checking students out of school for any other reasons than the following will result in an unexcused absence: 1) Medical, 2) Court Appearance, or 3) Family Crisis (approved by the principal/designee).

1. A student can be checked out by one of the following methods:
 - a. The student may present a note signed by the parent stating the reason for checking out, the time to be released, a phone number where the parent can be reached for verification.
 - b. The parent may call the office and give permission for the student to check out. The telephone number of the receiving call must match a telephone number in the student's demographic information.
 - c. The parent may come in person to the front office and check out his/her child.
2. Students in grades 7-12 who wish to checkout during the day, or those students who arrive at school after the school day has started must report to the office and properly sign in or out.
3. A student will not be allowed to check out for a period or more and then check back in on the same day without verification of the reason for checking out. Upon checking-out a student will leave campus immediately.

- Students are responsible for asking the teachers of the classes they missed what assignments they need to make up.
- Teachers are responsible for providing the missed assignments when asked by a returning student.
- Students are required to ask for their assignments on their first day back at school or their first class day after their return.

- As required/permitted by the student's Individual Education Program or 504 Plan.

Work for students serving an out-of-school suspension or expulsion shall be in accordance with the District's programs, measures, or alternative means and methods to continue student engagement and access to education during the student's period of suspension or expulsion, including offering an expelled student an opportunity for enrollment in digital learning courses or other alternative educational courses that result in the receipt of academic credit that is at least equal to credit the expelled student may have received from the District if the student had not been expelled.

TRUANCY AND TARDINESS

TRUANCY

Truancy is unexcused and defined as a student that is not present at school without the prior consent of parents and/or without permission from the office of the principal.

TARDINESS

Excused Tardy:

- School bus is late
- Staff member detains a student after class
- Students running late from a program on campus

This policy will be in effect for each semester and will start over at the beginning of each semester. Parents may appeal decisions to school or district administration in writing before reaching the maximum number of days. **A student is considered tardy if they are not in the classroom when the tardy bell rings.** Tardiness is a form of absenteeism and disrupts the learning environment. Tardies are calculated by the semester and are cumulative for each class period.

A tardy list will be generated weekly and appropriate consequences will be assigned.

Unexcused Tardy:

Students will be considered late and incur an unexcused tardy for any reason that is not listed above as excused.

Elementary

Checking a student into school after the 1st bell or out of school before the last bell in the elementary will be counted as a tardy. Tardiness is disruptive and repeated tardiness cannot be tolerated. **Students arriving at school after 7:55 AM, must have a parent or guardian come into the main office.** As a student's tardiness starts to add up, the following actions will occur:

- | | |
|--------------------------|---|
| • First unexcused tardy | Warning |
| • Second unexcused tardy | Warning |
| • Third unexcused tardy | Phone call |
| • Fourth unexcused tardy | Parent Meeting |
| • Fifth unexcused tardy | Lunch Detention/Counts as unexcused absence |

Additional unexcused tardies will result in additional unexcused absences and/or further disciplinary actions.

For students in rotational classes, a tardy may be issued if students are not in the classroom when class begins.

High School

- First unexcused tardy Warning
- Second unexcused tardy Warning
- Third unexcused tardy Lunch Detention
- Fourth unexcused tardy Lunch Detention & Parent Contact
- Fifth unexcused tardy Parent Contact/Counts as an unexcused absence
- Sixth unexcused tardy ISS (1 Full Day)
- Additional unexcused tardies may result in additional unexcused absences and/or further disciplinary actions.

SEMESTER TEST EXEMPTIONS

A comprehensive final evaluation will be given in every class at the conclusion of each semester. Semester exams will count 20% of the semester grade.

In order for a student to be granted a semester exemption, the following criteria must be met in the class:

Semester Grade in Class	Semester Absences in Class	Discipline For the Semester
A	No more than 5	No Out of School Suspensions, No more than one In-School Suspension.
B	No more than 4	
C	No more than 3	
D or F	No Semester exemptions will be granted for students with semester grades of D or F.	

4.10 CLOSED CAMPUS

Midland School District is a closed campus. Parents/guardians must provide written permission before any student under the age of 18 will be permitted to leave the school grounds with someone other than the parent/guardian. Students 18 or over must have written consent on file to check out. All students must check out through the office. School trips will be supervised by a teacher, coach, school official, approved parent or adult sponsor. Parents will be informed prior to field trips as to departure and return times and asked to return written approval on trips requiring bus transportation.

4.11

EQUAL EDUCATIONAL OPPORTUNITY

No student in the Midland School District shall be excluded from participation in, or denied the benefits of, or subjected to discrimination under any educational program or activity sponsored by the District on the basis of color, religion, national origin, sex, age, or disability. The District has a limited open forum granting equal access to the Boy Scouts of America and other youth groups.

Inquiries on non-discrimination may be directed to the Title IX Coordinator, who may be reached at 501-345-8844 or P.O. Box 630, Pleasant Plains, AR 72568.

STUDENT ORGANIZATIONS/EQUAL ACCESS

Non-curriculum-related secondary school student organizations wishing to conduct meetings on school premises during non-instructional time shall not be denied equal access on the basis of the religious, political, philosophical, national origin, or other content of the speech at such meetings. Such meetings must meet the following criteria.

1. The meeting is to be voluntary and student initiated;
2. There is no sponsorship of the meeting by the school, the government, or its agents or employees;
3. The meeting must occur during non-instructional time;
4. Employees or agents of the school are present at religious meetings only in a non-participatory capacity,
5. The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
6. Non-school persons may not direct, conduct, control, or regularly attend activities of student groups.

All meetings held on school premises must be scheduled and approved by the principal. The school, its agents, and employees retain the authority to maintain order and discipline, to protect the well-being of students and faculty, and to assure that attendance of students at meetings is voluntary. Fraternities, sororities, and secret societies are forbidden in the District's schools. Membership to student organizations shall not be by a vote of the organization's members, nor be restricted by the student's race, religion, sex, national origin, or other arbitrary criteria. Hazing as defined by law is forbidden in connection with the introduction or affiliation with any student organization, extracurricular activity or sports program.

4.13 PRIVACY OF STUDENTS' RECORDS/DIRECTORY INFORMATION

Except when a court order regarding a student has been presented to the district to the contrary, all students' education records are available for inspection and copying by the parents of his/her student who is under the age of eighteen (18). At the age of eighteen (18), the right to inspect and copy a student's records transfers to the student. A student's parent or the student, if over the age of 18, requesting to review the student's education records will be allowed to do so within no more than forty-five (45) days of the request. The district forwards education records, including disciplinary records, to schools that have requested them and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

The district shall receive written permission before releasing education records to any agency or individual not authorized by law to receive and/or view the education records without prior parental permission. The District shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable information hereinafter "PII") from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interests of the student. A personal record kept by a school staff member is not considered an education record if it meets the following tests.

- it is in the sole possession of the individual who made it;
- it is used only as a personal memory aid; and
- information contained in it has never been revealed or made available to any other person, except the maker's temporary substitute

For the purposes of this policy a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. For the purposes of this policy, a school official has a legitimate educational interest, if the official needs to review an education record in order to fulfill his or her professional responsibility, contracted duty, or duty of elected office.

The District discloses PII from an education record to appropriate parties, including parents, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The superintendent or designee shall determine who will have access to and the responsibility for disclosing information in emergency situations.

When deciding whether to release PII in a health or safety emergency, the District may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose

information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

For purposes of this policy, the Midland School District does not distinguish between a custodial and noncustodial parent, or a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student's records. Unless a court order restricting such access has been presented to the district to the contrary, the act of a person's status as parent or guardian, alone, enables that parent or guardian to review and copy his/her child's records.

If there exists a court order, which directs that a parent not have access to a student or his/her records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file-marked copy of such order to the building principal and the Superintendent. The school will make good-faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parents or guardians, their attorneys and the court which issued the order.

A parent or guardian does not have the right to remove any material from a student's records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student's file must be initiated with the building principal, with an appeal available to the Superintendent or his designee. The challenge shall clearly identify the part of the student's record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as requested, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will be provided information regarding the hearing procedure when notified of the right to a hearing.

Unless the parent or guardian of a student (or student, if above the age of eighteen [18]) objects, directory information about a student may be made available to the public, military recruiters, post-secondary educational institutions, prospective employers of those students, as well as school publications such as annual yearbooks and graduation announcements. "Directory information" includes, but is not limited to, a student's name, address, telephone number, electronic mail address, photograph, date and place of birth, dates of attendance, his/her placement on the honor roll (or the receipt of other types of honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the District. "Directory information" also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems and a student ID number or other unique personal identifier that is displayed on a student's ID badge, provided the ID cannot be used to gain

access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password or other factor known or possessed only by the authorized user.

A student's name and photograph will only be displayed on the district or school's web page(s) after receiving the written permission from the student's parent or student if over the age of 18. Failure to file an objection by that time is considered a specific grant of permission. The district is required to continue to honor any signed-opt out form for any student no longer in attendance at the district. The right to opt out of the disclosure of directory information under FERPA does not prevent the District from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled.

4.14

DISTRIBUTION OF LITERATURE

A student or group of students who distribute 10 or fewer copies of the same non-school literature, publication or material, shall do so in a time, place and manner that does not cause a substantial disruption to the school environment. Students wishing to distribute more than 10 copies of non-school materials shall have the superintendent, or his designee review the materials at least three days in advance of the distribution. The superintendent/designee will review the materials and bar from distribution those materials that are obscene, libelous, indecent, or advertise illegal products or services. Material may be barred which reasonably supports a forecast that a substantial disruption of the orderly operation of the school will likely result. Concerns related to denial of distribution by the principal shall be heard by the superintendent whose decision shall be final.

The school principal or designee shall establish reasonable regulations governing the time, place, and manner of student distribution of literature.

The regulations shall:

1. Be narrowly drawn to promote orderly administration of school activities by preventing disruption and may not be designed to stifle expression;
2. Be uniformly applied to all forms of materials;
3. Allow no interference with classes or school activities;
4. Specify times, places, and manner where distribution may and may not occur, and;
5. Not inhibit a person's right to accept or reject any literature distributed in accordance with the regulations.
6. Provide that students who distribute materials shall be responsible for picking up any materials thrown on school grounds.

The Superintendent, along with the student publication advisor, shall develop administrative regulations for the implementation of this policy. The regulations shall include definitions of terms and timelines for the review of materials.

CONTACT WITH STUDENTS WHILE AT SCHOOL

Parents wishing to visit their children during the school day shall register first with the office. If there is any question concerning the legal custody of the student, the parent shall present documentation to the principal or his/her designee establishing the parent's custody of the student or legal right of visitation. It shall be the responsibility of the custodial parent to make any visitation restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file-marked court order. Estranged parents may visit their child during school hours with the consent of the custodial parent.

Questioning of students by non-school personnel shall be granted only with a court order directing questioning, with permission of the parents of a student (or the student if above eighteen (18) years of age), in response to a subpoena or arrest warrant, or other entities such as state mandated personnel. If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis on student enrollment forms unless it jeopardizes student safety.

Principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of the social services. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis notice that the student has been taken into custody by law enforcement personnel or a social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and after hours' telephone number.

SCHOOL TELEPHONE

The school telephone is a business phone. Students are not to use it for making social arrangements or unnecessary calls. Messages will be delivered to students in case of emergencies. Students will not be taken out of class to talk on the phone unless it is an emergency. **Parents are encouraged to always make prior arrangements with students as to car rider, walker, or bus rider status before the student leaves for school in the morning.** This pre-planning helps prevent disruption of the instructional day.

STUDENT DISCIPLINE

The Midland Board of Education has a responsibility to protect the health, safety, and welfare of the District's students and employees. To help maintain a safe environment conducive to high student achievement, the Board establishes policies necessary to regulate student behavior to promote an orderly school environment that is respectful of the rights of others and ensures the uniform enforcement of student discipline. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school sponsored function, activity, or event; and
- Going to and from school or a school activity.

The District's administrators may also take disciplinary action against a student for off-campus conduct occurring at any time that would have a detrimental impact on school discipline, the educational environment, or the welfare of the students and/or staff. A student who has committed a criminal act while off campus and whose presence on campus could cause a substantial disruption to school or endanger the welfare of other students or staff is subject to disciplinary action up to and including expulsion. Such acts could include, but are not limited to: a felony or an act that would be considered a felony if committed by an adult; an assault or battery; drug law violations; or sexual misconduct of a serious nature. Any disciplinary action pursued by the District shall be in accordance with the student's appropriate due process rights.

The District shall incorporate the District's implementation of multi-tiered behavioral intervention procedures in accordance with Policy 4.60 in the application of student discipline.

The District's personnel policy committees shall annually review the District's student discipline policies, including State and District student discipline data, and may recommend changes in the policies to the Midland School Board. The Board has the responsibility of determining whether to approve any recommended changes to student discipline policies.

The District's student discipline policies shall be distributed to each student during the first week of school each year and to new students upon their enrollment. Each student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis shall sign and return to the school an acknowledgement form documenting that they have received the policies.

The District shall develop and provide programs, measures, or alternative means and methods for continued student engagement and educational access during periods of suspension or expulsion.

The superintendent is authorized to modify the penalties set forth in the District's student discipline policies on a case-by-case basis.

It is required by law that the principal or the person in charge report to the police any incidents the person has personal knowledge of or has received information leading to a reasonable belief that a person has committed or threatened to commit an act of violence or any crime involving a deadly weapon on school property or while under school supervision. If the person making the report is not the Superintendent, that person shall also inform the Superintendent of the incident. Additionally, the principal shall inform any school employee or other person who initially reported the incident that a report has been made to the appropriate law enforcement agency. The Superintendent or designee shall inform the Board of Directors of any such report made to law enforcement. The superintendent shall make a report annually to the Board of Directors on student discipline data, which shall include, without limitation: the number of incidents of bullying reported and the actions taken regarding the reported incidents of bullying.

Video surveillance cameras will be in use at MSD, school grounds and buses. Students will be held responsible for disciplinary issues captured on camera. Exterior doors at MSD will be locked during the school day. Visitors will be identified by visual contact at the front doors before being admitted to the office area to conduct business or receive a visitor badge as needed.

A.C.A. § 20-65-103

An orderly and safe school environment that is conducive to promoting student achievement requires a student population free from the deleterious effects of alcohol and drugs. Their use is illegal, disruptive to the educational environment, and diminishes the capacity of students to learn and function properly in our schools.

Therefore, no student in the Midland School District shall possess, attempt to possess, consume, use, distribute, sell, buy, attempt to sell, attempt to buy, give to any person, or be under the influence of any substance as defined in this policy, or what the student represents or believes to be any substance as defined in this policy.

This policy applies to any student who:

- Is on or about school property;
- Is in attendance at school or any school sponsored activity;
- Has left the school campus for any reason and returns to the campus; or
- Is on route to or from school or any school sponsored activity.

Prohibited substances shall include, but are not limited to:

- Alcohol, or any alcoholic beverage;
- Inhalants or any ingestible matter that alter a student's ability to act, think, or respond;
- LSD or any other hallucinogen;
- Marijuana;
- Cocaine, heroin, or any other narcotic drug;
- PCP;
- Amphetamines;
- Steroids;
- "Designer drugs";
- Look-alike drugs; or

The sale, distribution, or attempted sale or distribution of over-the-counter (OTC) medications, dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, or prescription drugs is prohibited. The possession or use of OTC medications, dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, or prescription drugs is prohibited.

CHEMICAL SCREEN TEST (DRUG TEST)

PHILOSOPHY

It is the philosophy of the Midland School Board of Education that students should be encouraged and supported in their efforts to develop and maintain a chemical-free lifestyle. The Board recognizes the use of mood-altering chemicals as a significant health problem for many students, resulting in negative effects on behavior, learning and the total development of each individual. The misuse and abuse of mood-altering chemicals for some students affects academic growth, achievement, activities participation and the development of related skills.

PURPOSE

The purpose of the Chemical Screen Test of the Midland School District is to:

1. Emphasize concerns for the health of students in areas of safety while participating in activities and the long-term physical and emotional effects of chemical use on their health.
2. Promote a sense of order and discipline among students.
3. Confirm and support existing state laws which restrict the use of drugs and alcohol.
4. Establish standards of conduct for those students who are leaders and standard-bearers among their peers.
5. Assist students who desire to resist peer pressure which directs them toward the use of mood-altering chemicals.
6. Assist students who should be referred for assistance or evaluation regarding their use of mood-altering chemicals.

7. To work with the parents to assist in keeping their children free of mood-altering chemicals.

METHOD

During the school year the Principal, or designee will randomly select students to be screened. Refusal to submit to testing results in the removal of the student from extracurricular activities and driving on campus. The student that refuses to test will receive the same consequence for the first positive test. A student/parent can submit evidence of a valid prescription in response to a positive and no penalties will be applied. Evidence could include a doctor's note, a prescription note, a prescription bottle with a student's name on it, etc.

CONSEQUENCES FOR A POSITIVE TEST

First Positive Test: Students testing positive for being under the influence of drugs and/or alcohol while on school property or at school sanctioned events. The student will be placed on probation for thirty (30) days during which the student will not be allowed to park on campus or participate in extracurricular activities. After thirty (30) days the student will be tested again. If the test is negative, the probation will be lifted. If the test is positive, the student will not be allowed to continue in school activities or to park on campus for the remainder of the school year. During this time the student cannot participate in any form of extra-curricular activity involving Midland Schools. To regain eligibility for participation in activities after this period, a student must have a negative chemical screening test. Another screen test can be administered by the school nurse after 30 days so that the student can participate again and be allowed to park on campus. Students will receive counseling after the first positive test. Students will be subject to legal proceedings.

Second Positive Test: One calendar year (365 days from the second offense) suspension from parking on campus and no participating in extracurricular activities for the rest of the school year (2025-2026) with the option of extending the penalty for participation of extracurricular activities under the discretion of the committee.

Third Positive Test: The student will be suspended from participating in extracurricular activities and parking on campus for the remainder of his/her enrollment with the school (may be appealed to the board).

Parents will be notified of any positive tests. The principal or designee will notify club or activity sponsors and/or coaches of the positive test. The principal will communicate with the parents and student and counseling may be provided for all students that test positive.

The Board is committed to ensuring a safe school environment conducive to promoting a learning environment where students and staff can excel. An orderly environment cannot exist where unlawful acts cause fear, intimidation, or physical harm to students or school staff. Gangs and their activities and symbols create such an atmosphere and shall not be allowed on school grounds or at school functions.

The following actions are prohibited by students on school property or at school functions:

1. Wearing or possessing any clothing, bandanas, jewelry, symbol, or other sign associated with membership in, or representative of, any gang;

 - b. Uses the rejection of sexual conduct as the basis for academic decisions affecting that individual;

Examples of supportive measures include, but are not limited to: measures designed to protect the safety of all parties or the District’s educational environment, or deter sexual harassment; counseling; extensions of deadlines or other course-related adjustments; modifications of work or class schedules; campus escort services; mutual restrictions on contact between the parties; changes in work or class locations; leaves of absence; and increased security and monitoring of certain areas of the campus.

Within the educational environment, sexual harassment is prohibited between any of the following: students; employees and students; and non-employees and students.

Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is

not, sexual harassment will depend upon all of the surrounding circumstances and may occur regardless of the sex(es) of the individuals involved. Depending upon such circumstances, examples of sexual harassment include, but are not limited to:

- Making sexual propositions or pressuring for sexual activities;
- Unwelcome touching;
- Writing graffiti of a sexual nature;
- Displaying or distributing sexually explicit drawings, pictures, or written materials;

- Rating other students or employees as to sexual activity or performance;
- Circulating or showing e-mails or Web sites of a sexual nature;
- Intimidation by words, actions, insults, or name calling; and
- Teasing or name-calling related to sexual characteristics or the belief or perception that an individual is not conforming to expected gender roles or conduct or is homosexual, regardless of whether or not the individual self-identifies as homosexual or transgender.

Students who believe they have been subjected to sexual harassment, or the parent/legal guardian/other responsible adult of a student who believes their student has been subjected to sexual harassment, are encouraged to bring their concerns to any District staff member, including a counselor, teacher, Title IX coordinator, or administrator. If the District staff member who received a report of alleged sexual harassment is not the Title IX Coordinator, then the District staff person shall inform the Title IX Coordinator of the alleged sexual harassment. As soon as reasonably possible after receiving a report of alleged sexual harassment from another District staff member or after receiving a report directly through any means, the Title IX Coordinator shall contact the complainant to:

- Discuss the availability of supportive measures;
- Consider the complainant's wishes with respect to supportive measures;
- Inform the complainant of the availability of supportive measures with or without the filing of a formal complaint; and
- explain to the complainant the process for filing a formal complaint.

Supportive Measures

The District shall offer supportive measures to the complainant and make supportive measures available to the respondent that are designed to restore or preserve equal access to the District's education program or activity without unreasonably burdening the other party before or after the filing of a formal complaint or where no formal complaint has been filed. The District shall provide individualized supportive measures to the complainant unless declined in writing by the complainant and shall provide individualized supportive measures that are non-disciplinary and non-punitive to the respondent. A complainant who initially declined the District's offer of supportive measures may request supportive measures at a

later time and the District shall provide individualized supportive measures based on the circumstances when the subsequent request is received.

Formal Complaint

A formal complaint may be filed with the Title IX Coordinator in person, by mail, or by email. Upon receipt of a formal complaint, a District shall simultaneously provide the following written notice to the parties who are known:

- Notice of the District's grievance process and a copy of the procedures governing the grievance process;
- Notice of the allegations of sexual harassment including sufficient details known at the time and with sufficient time to prepare a response before any initial interview.
Sufficient details include:
 - The identities of the parties involved in the incident, if known;
 - The conduct allegedly constituting sexual harassment; and
 - The date and location of the alleged incident, if known;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process;
- That the parties may have an advisor of their choice, who may be, but is not required to be, an attorney;
- That the parties may inspect and review evidence relevant to the complaint of sexual harassment; and
- That the District's code of conduct prohibits knowingly making false statements or knowingly submitting false information during the grievance process.

If, in the course of an investigation, the District decides to investigate allegations about the complainant or respondent that are not included in the previous notice, the District shall simultaneously provide notice of the additional allegations to the parties whose identities are known.

The District may consolidate formal complaints of allegations of sexual harassment where the allegations of sexual harassment arise out of the same facts or circumstances and the formal complaints are against more than one respondent; or by more than one complainant against one or more respondents; or by one party against the other party. When the District has consolidated formal complaints so that the grievance process involves more than one complainant or more than one respondent, references to the singular "party", "complainant", or "respondent" include the plural, as applicable.

When investigating a formal complaint and throughout the grievance process, a District shall:

- Ensure that the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rest on the District and not on the parties;
- Not require, allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege or access, consider, disclose, or otherwise use a party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party unless the District obtains the parent, legal guardian, or other responsible adult of that party's voluntary, written consent or that party's voluntary, written consent if the party is over the age of eighteen (18) to do so for the grievance process;
- Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence;
- Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence;
- Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney, and not limit the choice or presence of advisor for either the complainant or respondent in any meeting or grievance proceeding;
- Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all hearings, investigative interviews, or other meetings, with sufficient time for the party to prepare to participate;
- Provide both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in the formal complaint so that each party can meaningfully respond to the evidence prior to the conclusion of the investigation; this includes evidence:
 - Whether obtained from a party or other source;
 - The District does not intend to rely upon in reaching a determination regarding responsibility; and
 - That is either Inculpatory or exculpatory; and
- Create an investigative report that fairly summarizes relevant evidence.

At least ten (10) days prior to completion of the investigative report, the District shall send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy. The parties shall have at least ten (10)3 days to submit a written response to the evidence. The investigator will consider the written responses prior to completion of the investigative report. All evidence subject to inspection and review shall be available for the parties' inspection and review at any meeting to give each party equal opportunity to refer to such evidence during the meeting.

After the investigative report is sent to the parties, the decision-maker shall:

- Provide each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness;
- Provide each party with the answers;
- Allow for additional, limited follow-up questions from each party; and
- Provide an explanation to the party proposing the questions any decision to exclude a question as not relevant. Specifically, questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

No earlier than ten (10) days following the completion of the investigation period, the decision-maker, who cannot be the same person as the Title IX Coordinator or the investigator, shall issue a written determination regarding responsibility. The written determination shall include—

1. Identification of the allegations potentially constituting sexual harassment;
2. A description of the procedural steps taken from the receipt of the formal complaint through the determination, including:
 - a. Any notifications to the parties;
 - b. Interviews with parties and witnesses;
 - c. site visits;
 - d. Methods used to gather other evidence; and
 - e. Hearings held;
3. Findings of fact supporting the determination;
4. Conclusions regarding the application of the District's code of conduct to the facts;
5. A statement of, and rationale for, the result as to each allegation, including:
 - a. A determination regarding responsibility;
 - b. Any disciplinary sanctions imposed on the respondent; and
 - c. Whether remedies designed to restore or preserve equal access to the District's education program or activity will be provided by the District to the complainant; and
6. The procedures and permissible bases for the complainant and respondent to appeal.

The written determination shall be provided to the parties simultaneously. The determination regarding responsibility shall become final on the earlier of:

- If an appeal is not filed, the day after the period for an appeal to be filed expires; or
- If an appeal is filed, the date the written determination of the result of the appeal is provided to the parties.

The District shall investigate the allegations in a formal complaint. If the conduct alleged in the formal complaint would not constitute sexual harassment as defined in this policy even if proved; did not occur in the District's education program or activity; or did not occur against a person in the United States, then the District shall dismiss the complaint as not meeting the definition of sexual harassment under this policy. A dismissal for these reasons does not preclude action under another provision of the District's code of conduct.

The District may dismiss the formal complaint or any allegations therein, if at any time during the grievance process:

- The complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- The respondent is no longer enrolled at the District; or
- Specific circumstances prevent the District from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Upon the dismissal of a formal complaint for any reason, the District shall promptly send written notice of the dismissal and reason(s) for the dismissal simultaneously to the parties.

The District may hire an individual or individuals to conduct the investigation or to act as the determination-maker when necessary.

Appeals

Either party may appeal a determination regarding responsibility or from a dismissal of a formal complaint or any allegations therein, on the following bases:

- a. The existence of a procedural irregularity that affected the outcome of the matter;
- b. Discovery of new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter;
- c. The Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter; or
- d. An appeal of the disciplinary sanctions from the initial determination.⁴

For all appeals, the District shall:

1. Notify the other party in writing when an appeal is filed;
2. Simultaneously Provide all parties a written copy of the District's procedures governing the appeal process;
3. Implement appeal procedures equally for both parties;
4. Ensure that the decision-maker for the appeal is not the same person as the decision-maker that reached the original determination regarding responsibility or dismissal, the investigator, or the Title IX Coordinator;
5. Provide all parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome;
6. Issue a written decision describing the result of the appeal and the rationale for the result; and
7. Provide the written decision simultaneously to both parties.

Confidentiality

Reports of sexual harassment, both informal reports and formal complaints, will be treated in a confidential manner to the extent possible. Limited disclosure may be provided to:

- Individuals who are responsible for handling the District's investigation and determination of responsibility to the extent necessary to complete the District's grievance process;
- Submit a report to the child maltreatment hotline;
- Submit a report to the Professional Licensure Standards Board for reports alleging sexual harassment by an employee towards a student; or
- The extent necessary to provide either party due process during the grievance process.⁵

Except as listed above, the District shall keep confidential the identity of:

- Any individual who has made a report or complaint of sex discrimination;
- Any individual who has made a report or filed a formal complaint of sexual harassment;
- Any complainant;
- Any individual who has been reported to be the perpetrator of sex discrimination;
- Any respondent; and
- Any witness.

Any supportive measures provided to the complainant or respondent shall be kept confidential to the extent that maintaining such confidentiality does not impair the ability of the District to provide the supportive measures.

Emergency removal

The District may remove a respondent from the District's education program or activity on an emergency basis only after the completion of an individualized safety and risk analysis that determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal. A removed student will be provided with notice and an opportunity to challenge the removal decision immediately following the removal.

Retaliation Prohibited

Students, or the parents/legal guardians/ other responsible adult of a student, who submit a report or file a formal complaint of sexual harassment,; testified; assisted; or participate or refused to participate in any manner in an investigation, proceeding, or hearing on sexual harassment shall not be subjected to retaliation or reprisal in any form, including threats; intimidation; coercion; discrimination; or charges for code of conduct violations that do not involve sex discrimination or sexual harassment, arise out of the same facts or circumstances as a report or formal complaint of sex discrimination, and are made for the purpose of interfering with any right or privilege under this policy. The District shall take steps to prevent retaliation and shall take immediate action if any form of retaliation occurs regardless of whether the retaliatory acts are by District officials, students, or third parties.

Disciplinary Sanctions

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment. Following the completion of the District's grievance process, any student who is found by the evidence to more likely than not⁷ have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion. No disciplinary sanction or other action that is not a supportive measure may be taken against a respondent until the conclusion of the grievance process.

Students who knowingly fabricate allegations of sexual harassment or purposely provide inaccurate facts shall be subject to disciplinary action up to and including expulsion. A determination that the allegations do not rise to the level of sexual harassment alone is not sufficient to conclude that any party made a false allegation or materially false statement in bad faith.

Records

The District shall maintain the following records for a minimum of seven (7) years:

- Each sexual harassment investigation including:
- Any determination regarding responsibility;
- any disciplinary sanctions imposed on the respondent;

- Any remedies provided to the complainant designed to restore or preserve equal access to the District's education program or activity;
- Any appeal and the result therefrom;
- All materials used to train Title IX Coordinators, investigators, and decision-makers;
- Any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment, which must include:
 - The basis for the District's conclusion that its response was not deliberately indifferent; and
 - Document:
 - If supportive measures were provided to the complainant, the supportive measures taken designed to restore or preserve equal access to the District's education program or activity; or
 - If no supportive measures were provided to a complainant, document the reasons why such a response was not clearly unreasonable in light of the known circumstances.

The opportunity to use the District’s technology to access the Internet is a privilege and not a right.

Technology Protection Measures

The District is dedicated to protecting students from materials on the Internet or world wide web that are inappropriate, obscene, or otherwise harmful to minors; therefore it is the policy of the district to protect each electronic device with internet filtering software that is designed to prevent students from accessing such materials. SUSPENSION FROM SCHOOL

Students not present at school lose the benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of a student from school. The Board authorizes school principals or their designees to suspend students for disciplinary reasons for a period of time not to exceed ten (10) school days, including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs: at any time on the school grounds; off school grounds at a school-sponsored function, activity, or event; going to and from school or a school activity.

A student may be suspended for behavior including, but not limited to that which:

1. Violation of school policies, expectations, or regulations;
2. Substantially interferes with the safe and orderly educational environment;
3. School administrators believe will result in the interference of a safe and orderly educational environment; and/or
4. Is insubordinate, incorrigible, violent, or involves moral turpitude.
 - The school principal or designee shall proceed as follows in deciding whether or not to suspend a student.
 - The student shall be given written notice or advised orally of the charges against him/her;
 - If the student denies the charges, he/she shall be given an explanation of the evidence against him/her and be allowed to present his/her version of the facts;
 - If the principal finds the student guilty of misconduct, he/she may be suspended.

When possible, notice of the suspension, its duration, and any stipulations for the student's re-admittance to class will be given to the parent(s), legal guardian(s), or to the student if age 18 or older prior to the suspension. Such notice shall be handed to the parent(s), legal guardian(s), or to the student if age 18 or older or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the parents' or legal guardians' responsibility to provide current contact information to the district which the school shall use to immediately notify the parent or legal guardian upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

1. A primary call number
2. The contact may be by voice, voice mail, or text message
3. An email address

4. A regular first class letter to the last known mailing address

The district shall keep a log of contacts attempted and made to the parent or legal guardian. During the period of their suspension, students serving out-of-school suspensions shall not be permitted on campus except to attend a student/parent/administrator conference.

During the period of their suspension, students serving any school suspension shall not attend any school-sponsored activities during the imposed suspension nor shall the student participate in any school-sponsored activities.

Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board.

Suspensions initiated by the Superintendent may be appealed to the Board.

Any work completed during IN-SCHOOL suspension will have the opportunity to receive full credit.

Any work completed during OUT-OF-SCHOOL suspension will only receive a maximum of ½ credit value. (Example: test worth 100 points= maximum of 50 points available to be earned out of the 100)

4.31

EXPULSION

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct deemed to be of such gravity that suspension would be inappropriate, or where the student's continued attendance at school would disrupt the orderly learning environment or would pose an unreasonable danger to the welfare of other students or staff.

The Superintendent or his/her designee shall give written notice to the parents or legal guardians (mailed to the address reflected on the District's records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider dispose of the recommendation.

The hearing shall be conducted not earlier than ten (10) school days following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Board attorney, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. Both the district administration and School Board may be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, or student if age 18 or older, requests that the hearing be conducted in executive session. Any action taken by the Board will be in open session.

During the hearing, the Superintendent, or designee, or representative will present evidence, including the calling of witnesses that gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence including statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted. However, any member of the Board, the Superintendent, or designee, the student, or his/her representative may question anyone making a statement and/or the student. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing.

SEARCH, SEIZURE, AND INTERROGATIONS

The District respects the rights of its students against arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District in order to promote an environment conducive to student learning. The Superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the school community.

School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult witness, however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.

The Superintendent, principals, and their designees may request the assistance of law enforcement officials and their specially trained dogs to help conduct searches.

A school official of the same sex shall conduct personal searches with an adult witness of the same sex present.

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72 –hour hold" without first obtaining a court order.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of the court with a court order signed by a judge. Upon release of the student, the principal or designee shall make a good faith effort to notify the parent or guardian that the student has been taken into custody.

If the District makes a report to any law enforcement agency concerning student misconduct or if student access is granted to a law enforcement agency due to a court order, the principal

or designee will make a good faith effort to contact parents or guardians listed on school enrollment cards. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that such notification is prohibited because the parent/guardian is named as an alleged offender of child maltreatment.

STUDENTS' VEHICLES

A student who has presented a valid driver's license and proof of insurance to the appropriate office personnel, may drive his/her vehicle to school. Vehicles driven to school shall be parked in the area designated for student parking. Parking on school property is a privilege which may be denied to a student for any disciplinary violation, at the discretion of the student's building principal.

Students are not permitted to loiter in parking areas and are not to return to their vehicles during the school day for any reason unless given permission to do so by school personnel.

It is understood that there is no expectation of privacy in vehicles in parking areas. Drivers of vehicles parked on a school campus will be held accountable for illegal substances or any other item prohibited by District policy found in their vehicle. The act of a student parking a vehicle on campus is a grant of permission for school or law enforcement authorities to search that vehicle.

4.34

COMMUNICABLE DISEASES AND PARASITES

Students with communicable diseases or with human host parasites that are transmittable in a school environment shall demonstrate respect for other students by not attending school while they are capable of transmitting their condition to others. Students whom the school nurse determines are unwell or unfit for school attendance or who are believed to have a communicable disease or condition will be required to be picked up by their parent or guardian. Specific examples include, but are not limited to: chicken pox, measles, scabies, conjunctivitis (Pink Eye), impetigo/MRSA (Methicillin-resistant *Staphylococcus aureus*), streptococcal and staphylococcal infections, ringworm, mononucleosis, Hepatitis B or C, mumps, vomiting, diarrhea, and fever (100.4 F when taken orally). A student who has been sent home by the school nurse will be subsequently readmitted, at the discretion of the school nurse or administration, when the student is no longer a transmission risk. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District's exposure control plan when dealing with any blood borne, foodborne, and airborne pathogens exposures. Standard precautions shall be followed relating to the handling, disposal, and cleanup of blood and other potentially infectious materials such as all body fluids, secretions and excretions (except sweat).

The District shall maintain a copy of each student's immunization record and a list of individuals with exemptions from immunization, which shall be education records as defined in policy 4.13. That policy provides that an education record may be disclosed to appropriate parties in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

A student enrolled in the District who has an immunization exemption may be removed from school at the discretion of the Arkansas Department of Health during an outbreak of the disease for which the student is not vaccinated. The student may not return to the school until the outbreak has been resolved and the student's return to school is approved by the Arkansas Department of Health.

The parents or legal guardians of students found to have live human host parasites that are transmittable in a school environment, will be asked to pick their child up. The parents or legal guardians will be given information concerning the eradication and control of human host parasites. A student may be readmitted after; the school nurse or designee has determined the student no longer has live human host parasites that are transmittable in a school environment.

Each school may conduct screenings of students for human host parasites that are transmittable in a school environment as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student.

STUDENT MEDICATIONS

Prior to the administration of any medication to any student under the age of eighteen (18), written parental consent is required. The consent form shall include authorization to administer the medication and relieve the Board and its employees of civil liability for damages or injuries resulting from the administration of medication to students in accordance with this policy. All signed medication consent forms are to be maintained by the school nurse.

Unless authorized to self-administer, students are not allowed to carry any medications, including over-the-counter medications or any perceived health remedy not regulated by the US Food and Drug Administration, while at school. **THE PARENT OR LEGAL GUARDIAN SHALL PROVIDE THE STUDENT'S MEDICATION INCLUDING ANY OVER THE COUNTER MEDICATIONS, TO THE SCHOOL NURSE. STUDENTS MAY NOT TRANSPORT MEDICATION.** When medications are brought to the school nurse, the nurse shall document, in the presence of the parent, the quantity and type of medication(s). If the medications are brought by the student, the school nurse shall ask another school employee to verify, in the presence of the student, the quantity of the medication(s). Each person present shall sign a form verifying the quantity and type of medication(s).

Prescription medications, including those for self-medication, must be in the original container and be properly labeled with the student's name, the ordering health care provider's name, the name of the medication, the dosage, frequency, and instructions for the administration of the medication (including times). Additional information accompanying the medication shall state the purpose for the medication, its possible side effects, and any other pertinent instructions (such as special storage requirements) or warnings. Schedule II medications that are permitted by this policy to be brought to school shall be stored in a double locked cabinet.

Students taking Schedule II medications not included in the previous sentence shall be allowed to bring them to school under the provisions of this policy and shall be permitted to attend and participate in classes only to the extent the student's doctor has specifically authorized such attendance and participation. A doctor's prescription for a student's Schedule II medication is not an authorization. Attendance authorization shall specifically state the degree and potential danger of physical exertion the student is permitted to undertake in the student's classes and extracurricular activities. Without a doctor's written authorization, a student taking Schedule II medications, other than those specifically authorized in this policy, shall not be eligible to attend classes, but shall be eligible for homebound instruction if provided for in their IEP or 504 plans.

HOMELESS STUDENTS

The Midland School District will afford the same services and educational opportunities to homeless children as are afforded to non-homeless children. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational agency (LEA) liaison for homeless children and youth whose responsibilities shall include, but are not limited

To:

- Receive appropriate time and training in order to carry out the duties required by law and this policy;
- Coordinate and collaborate with the State Coordinator, community, and school personnel responsible for education and related services to homeless children and youths;
- Ensure that school personnel receive Professional development and other support regarding their duties and responsibilities for homeless youths;
- Ensure that unaccompanied homeless youths:
 - o Are enrolled in school;
 - o Have opportunities to meet the same challenging State academic standards as other children and youths; and
 - o Are informed of their status as independent students under the Higher Education Act of 1965 and that they may obtain assistance from the LEA liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid;

Ensure that public notice of the educational rights of the homeless children and youths is disseminated in locations frequented by parents or guardians of such youth, and unaccompanied homeless youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form that is easily understandable. To the extent possible, the LEA liaison and the building principal shall work together to ensure no homeless child or youth is harmed due to conflicts with District policies solely because of the homeless child or youth's living situation; this is especially true for District policies governing fees, fines, and absences. Notwithstanding Policy 4.1, homeless students living in the district are entitled to enroll in the district's school that non-homeless students who live in the same attendance area are eligible to attend. If there is a question concerning the enrollment of a homeless child due to a conflict with Policy 4.1 or 4.2, the child shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute, including all appeals. It is the responsibility of the District's LEA liaison for homeless children and youth to carry out the dispute resolution process. For the purposes of this policy "school of origin" means:

- The school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool; and
- The designated receiving school at the next grade level for all feeder schools when the child completes the final grade provided by the school of origin.

The District shall do one of the following according to what is in the best interests of a homeless child: Continue the child's or youth's education in the school of origin for the

duration of Homelessness: In any case in which a family becomes homeless between academic years or during an academic year; and For the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or Enroll the child or youth in any public school that no homeless students who live in the attendance areas in which the child or youth is actually living are eligible to attend. In determining the best interest of the child or youth, the District shall:

- Presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
- Consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth.

If the District determines that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, the District shall provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal. For an unaccompanied youth, the District shall ensure that the LEA liaison assists in placement or enrollment decisions, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

The homeless child or youth must be immediately enrolled in the selected school regardless of whether application or enrollment deadlines were missed during the period of homelessness. The District shall be responsible for providing transportation for a homeless child, at the request of the parent or guardian (or in the case of an unaccompanied youth, the LEA Liaison), to and from the child's school of origin.

For the purposes of this policy, students shall be considered homeless if they lack a fixed, regular, and adequate nighttime residence and:

- A. Are:
- Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
 - Living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
 - Living in emergency or transitional shelters;
 - Abandoned in hospitals; or
- B. Have a primary nighttime residence that is a public or private place not designed for or Ordinarily used as a regular sleeping accommodation for human beings;
- C. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
- D. Are migratory children who are living in circumstances described in clauses (a) through (c). In accordance with Federal law, information on a homeless child or youth's living situation is part of the student's education record and shall not be

considered, or added, to the list of directory information in Policy 4.13.

PHYSICAL EXAMINATIONS OR SCREENINGS

The district conducts routine health screenings such as hearing, vision, and scoliosis due to the importance these health factors play in the ability of a student to succeed in school. The intent of the exams or screenings is to detect defects in hearing, vision, or other elements of health that would adversely affect the student's ability to achieve to his/her full potential.

The rights provided to parents under this policy transfer to the student when he/she turns eighteen (18) years old.

Except in instances where a student is suspected of having a contagious or infectious disease, parents shall have the right to opt their student out of the exams or screenings by using form 4.41F or by providing certification from a physician that he/she has recently examined the student.

In compliance with the Family Education Rights and Privacy Act (FERPA) (20U.S.C. & 1232g; 34 CFR Part 99), I give permission for my child's personally identifiable information/student education records to be disclosed to Third Party Billing Vendor for the purpose of billing Medicaid and/or private insurance related to health screenings if applicable. **If object, the parent/guardian should submit in writing to the district within 10 school days upon receipt of this notice.

- The second semester eighth grade student and the first semester ninth grade student meet the academic eligibility requirements for junior high by successfully passing four (4) academic courses the previous semester as specified by the Arkansas Department of Education's Standards for Accreditation of Arkansas Public Schools.
- First semester ninth grade students must pass four academic classes to be eligible for the second semester of the ninth grade. Ninth grade students must meet senior high academic eligibility by the end of the second semester in order to be eligible to participate in the fall of their tenth grade year. Students who have finished two semesters of the ninth grade must follow all senior high (10-12) academic requirements.

NOTE: After the second semester of the ninth grade, students who have not earned enough credits to be classified as a sophomore must meet the scholarship requirements for senior high (10-12) eligibility.

Senior High

- The requirement for senior high (10-12) eligibility shall include:
Passing four academic courses; and A minimum GPA of 2.0, based on the previous semester. The student must have passed four academic courses in the previous semester. Any of these four courses for which concurrent high school credit is earned may be from an institution of higher learning recognized by the Arkansas Department of Education.

Midland School district does not participate in SIP and abides by the Arkansas Activities Association (AAA) guidelines.

Activity Policy*Purpose for Policy*

The purpose of this policy is to go above and beyond the requirements set forth by the Arkansas Athletic Associations policy of eligibility to play in sporting functions and to include all activities provided by the Midland School District.

Policy

The Midland School District activity teachers and coaches will check grades for each active student that participates in any school-led activity(ies) and sporting events that is provided by the Midland School District on each Monday morning by 10:00AM.

If a student is flagged for having an “F” at any time during the nine weeks, they will be given one week to correct their grades due to missing assignments, low scores on assignments, etc. If a student has been absent, that advisor/coach will follow the student handbook absentee policy for make-up work.

- A. IF, the student is able to bring their grades up above an “F” during that week, the student will be eligible to participate during the next weeks’ scheduled activity(ies).
- B. IF, the student is not able to bring their grades up above an “F” during that week, the student will be ineligible to participate during the next week’s scheduled activity(ies).
- C. IF, the student has an “F” during any of the Monday reviews for grades, the student must have above the “F” each week, in order to participate in any activity.

Discipline

- Coaches should be fair and consistent.
- Our general philosophy will be that we will attempt to help someone who makes a mistake. However, if this is repeated, the welfare of the team must take priority. This violation might mean breaking training rules, missing practice, having a poor attitude, etc.
- Coaches have the right to discipline athletes on their individual teams but should exercise sound judgment in administering specific penalties, keeping in mind the welfare of the team as well as the individual.
- No coach should dismiss an athlete from a team before discussing it with the head coach, athletic director and principal, allowing a 24–hour evaluation period except in extenuating circumstances. Remember that the easiest thing to do is remove a problem; saving a student and keeping them in your program takes wisdom and courage.
- Coaches should regularly encourage students to attend practice and classes. Any athlete who does not practice should not play. A medical reason, however, should be considered when holding athletes out of contests for missing practice.
- Athletes assigned in-school suspension cannot be taken out of ISS for practice or to go on team trips. However, they can go with the team on a trip after school is out or play at home.
- Athletes suspended from school (ISS or OSS) cannot attend a practice or a game while suspended.
- Coaches should remind athletes that hazing another student is against state law and will be turned over to the administration of Midland School District and the Independence County Sheriff’s Department.

ATTENDANCE REQUIREMENT FOR ACTIVITIES

Students who are not in attendance for all assigned classes on the day of the activity, will not be allowed to participate in any school activity that day or night unless prior approval or arrangements have been made with the principal before the absence occurs.
